1" LAMINATED INSULATED GLASS UNIT**

SG4 with Vitro Solarban 60 Low-e

ARGON GAS FILLED

PRODUCT #: SGG-IG16.SG4.SB60-T3.SP6-ARG

DESCRIPTION:

An attack resistant insulated glass unit with an outboard pane of 3/16" Vitro clear tempered glass coated with Solarban 60 low-e on surface #2. The SG4™ portion is a laminated glass composite product consisting of outer layers of glass with a custom security strengthened substrate core. It is specifically designed to slow down intruders but is not bullet resistant to certain ballistic threats. When shot, it will not shatter like ordinary tempered glass and is far stronger than laminated glass of glass reinforced with security film. SG4™ remains in the frame blocking the intruder from entry.
