SG4 with Vitro Solarban 70 Low-e on Solarbronze

ARGON GAS FILLED

PRODUCT #: SGG-IG17.SG4.SB70-SBRZ-T4.SP6-ARG

DESCRIPTION:

An attack resistant insulated glass unit with an outboard pane of 1/4" Vitro Solarbronze® tinted tempered glass coated with Solarban 70 low-e on surface #2. The SG4™ portion is a laminated glass composite product consisting of outer layers of glass with a custom security strengthened substrate core. It is specifically designed to slow down intruders but is not bullet resistant to certain ballistic threats. When shot, it will not shatter like ordinary tempered glass and is far stronger than laminated glass of glass reinforced with security film. SG4™ remains in the frame blocking the intruder from entry.

FEATURES:

- SG4 attack resistant
- Insulated glass unit with Argon gas
- Air filled
- Vitro Solarban 70 low-e on Solarbronze tint
